

# Europa-Center Suhr BIM Award

Call for Applications Study Award 2020

*Under the patronage of*

**SENATOR DR. DOROTHEE STAPELFELDT**

*Senator for URBAN DEVELOPMENT AND HOUSING  
of the FREE AND HANSEATIC CITY OF HAMBURG*

*the Professorship for*

**DIGITAL INTEGRATED PROCESS  
MANAGEMENT — PLANNING  
BUILDING INFORMATION MODELING (BIM)**

*at the HAFENCITY UNIVERSITY HAMBURG,*

*announces in collaboration with EUROPA-CENTER  
UWE HEINRICH SUHR FOUNDATION,*

*for the 2nd time the*

**EUROPA-CENTER SUHR BIM AWARD.**

## Europa-Center Suhr BIM Award

Call for Applications Study Award 2020

*This year the award will be given to excellent BACHELOR  
AND MASTER THESES addressing the following topic:*

**RESOURCE EFFICIENCY AND SUSTAINABILITY  
WITH BUILDING INFORMATION MODELING (BIM),  
WITH PARTICULAR FOCUS ON EXISTING BUILDINGS**

*Building Information Modeling enables consistent information  
management over the entire life cycle of a building, based on digital  
building models. In the light of the sustainability and environmental  
protection challenges we face today there is an urgent need to better  
integrate these aspects in the planning, construction and operation of  
buildings. While the BIM methodology has been increasingly applied  
on the development of new buildings, the aspects of sustainability  
for existing projects have still not been sufficiently addressed and  
certainly not enough in the context of digital, model-based processes.  
This also applies for the interactions between existing buildings  
and new construction initiatives at the neighborhood level and for  
the environmental effects, which result out of these interactions.*

*Against this background, this year's EUROPA-CENTER Suhr BIM  
Award aims specifically at outstanding student research projects  
that use the BIM method to address sustainability issues for the  
preservation, restoration, conversion or operation of existing buildings.*

*Applicants can address the following aspects:*

- *Inventory and transfer of inventory data to digital building information models,*
- *Sustainability aspects, such as CO<sub>2</sub> neutrality, resource efficiency, waste prevention, etc.*

- *Integration of material properties in the technical models and sub-models,*
- *LCA-oriented modeling / integration of LCA values (Life-Cycle Assessment),*
- *Integration of real-time data into the model (sensor application),*
- *Protection and preservation of built heritage,*
- *Fire protection planning in existing buildings,*
- *Integration into a CAFM system (BIM2FM),*

### ABOUT THE PROFESSORSHIP

*The Endowed Professorship for Digital Integrated Process Management focuses on the scientific examination of digital planning tools at the interface to professional practice: **PLANNING — CONSTRUCTION — OPERATION — GENERAL COORDINATION — DATA MANAGEMENT.** The examination and exploration of processes and workflows in an interdisciplinary context plays an important role here, as does the change in job profiles that comes with digitalization.*

*The practice-oriented mediation of the cooperative working methods of Building Information Modeling (BIM) in research and teaching is of central importance here.*

*In this context, BIM is understood according to the definition in the Roadmap for Digital Design and Construction of the Federal Ministry of Transport and Digital Infrastructure from December 2015:*

**“BUILDING INFORMATION MODELLING MEANS A COLLABORATIVE WORK METHOD THAT CREATES AND USES DIGITAL MODELS OF AN ASSET AS A BASIS FOR THE CONSISTENT GENERATION AND MANAGEMENT OF INFORMATION AND DATA RELEVANT TO THE ASSET'S LIFE CYCLE AS WELL AS FOR THE SHARING OR PASSING ON OF SUCH INFORMATION AND DATA BETWEEN THE PARTICIPANTS FOR FURTHER PROCESSING**

# Europa-Center Suhr BIM Award

Call for Applications Study Award 2020

## Europa-Center Suhr BIM Award

Call for Applications Study Award 2020

### <sup>A</sup> Conditions of Participation

Theses written in **GERMAN** or **ENGLISH** and not older than one year (at the latest winter semester 2019/2020 with submission or defense date not earlier than 01.01.2020) will be considered.

Eligible are **BACHELOR'S** and **MASTER'S** STUDENTS from European universities who study **ARCHITECTURE, CIVIL ENGINEERING, URBAN PLANNING, URBAN DESIGN, GEODESY** and other related disciplines with a focus on the planning and design of the built environment.

### <sup>B</sup> Documents to Be Submitted

- **EXPOSÉ** (max. 3 DIN A4 pages, printed one-sided), in which the qualification of the thesis according to the award criteria is presented (DE/EN)
  - the **COMPLETE THESIS** (DE/EN), including grade sheet (if available)
  - **CONTACT DETAILS**
- All documents should be submitted in electronic form.

### <sup>C</sup> Prizes

Three prizes will be awarded in each of the two prize categories „Master Theses“ and „Bachelor Theses“.  
The prize amounts are distributed as follows:

MASTER		BACHELOR	
1. Prize	EUR 3.000	1. Prize	EUR 2.000
2. Prize	EUR 2.000	2. Prize	EUR 1.250
3. Prize	EUR 1.000	3. Prize	EUR 750

### <sup>D</sup> Members of the Jury

The jury consists of 5 experts, representatives of business, professional associations, public authorities, research and the awarding institutions. The members will be announced promptly.

### <sup>E</sup> Submission

Please submit your competition entry by e-mail only, to [BIM@HCU-HAMBURG.DE](mailto:BIM@HCU-HAMBURG.DE) with the subject line „BIM AWARD 2020: [TITLE OF THE THESIS, MA OR BA]“. For attachments larger than 8 MB it is recommended to send your submission via the HCU cloud:  
Upload-Link: [follow click](#)

### <sup>F</sup> Possible Evaluation Criteria

- Innovative character of the work
- Scientific competence and potential for further research
- Consideration of the collaborative aspects of the work with BIM
- Consideration of the integration of work processes on the basis of digital building models
- Methodological approach and depth of elaboration
- Practical relevance
